

## RECIPES FOR MAKING ICE.

Any housewife by following the new recipe just discovered will be able to make ice easily. This new ice is cheap and quickly prepared, being composed of a kind of ammonia salt. With it, ice cream may be frozen in a few minutes. So many wonderful improvements are being discovered that it brings into prominence any institution that remains unchanged. Such an example is Hostetter's Stomach Bitters, the well-known remedy for weak stomachs. Fifty years have seen no change in it. While many imitations have risen and fallen, this excellent medicine has remained unchanged—as a cure for indigestion, constipation, dyspepsia and biliousness, it is unequalled. See that our private revenue stamp covers the neck of the bottle.

**A New Railroad to San Francisco.**  
The newly completed extension of the Santa Fe Route through the San Joaquin valley to San Francisco was opened for passenger business on July 1, 1900.  
The Atchison, Topeka & Santa Fe railway has heretofore possessed the distinction of being the only line with its own track and trains all the way from Chicago to Los Angeles and San Diego. San Francisco and the important cities of the San Joaquin valley are now added to the vast territory served by this great transportation system under one management, which territory also includes a large part of the region between Denver on the north and Galveston on the south.  
Stress is laid upon single ownership and management, which insure uniform excellence of service. Overland trains by this route do not miss connection, because they run through. The eating house and dining car service is of the same superior quality throughout, under management of Mr. Fred Harvey. The best equipment is provided. Employees are everywhere solicitous and courteous. Responsibility for the comfort of passengers is not divided.  
No other transcontinental route offers so great a number of attractions to the tourist. Among these are mountain altitude and scenery, extinct volcanoes, petrified forests, prehistoric ruins, Indian pueblos, the Yosemite, and the Grand Canyon of Arizona, which is the greatest scenic wonder of the world. Every characteristic phase of industrial life in the west is traversed en route.  
The Santa Fe has long been the favorite route between the east and southern California. By virtue of the same high-grade service and unexcelled attractions it hopes to win equal favor with travelers to and from San Francisco and intermediate cities of the Golden State.  
The service will consist at first of Pullman and tourist sleepers and chair cars daily. The early resumption of the California Limited is contemplated.
